*Constant Procession* the book and podcast series offer a look at the gift individuals find when seeking something more in their daily lives than what society provides. They have gained strength from faith in God and believe his church on earth fills that void.

They turn to the Virgin Mary to appeal to her son, Jesus the Christ to answer prayers for themselves and prayers for the world.

Also, some believe that at critical moments in time the Mother of God will appear on earth to provide wisdom and guidance for humanity.

Collectively these men and woman continue an endless stream of people who since the earliest days of the Christian church have sought the Virgin Mary's help in the lives of their families, friends, loved ones and themselves.

The book and podcasts uses the timeline of history as a guide for revealing how the Virgin Mary's apparitions have impacted the history of humanity.
